

Please support the no call list. I feel that my life needs times of peace and quite. Freedom from salesmen and surveyers. My phone needs to be kept free of unsolicited garbage so that my family can call when they need to, and I don,t have to jump up from my dinner to answer a computergenerated call or a salesmanwho high pressures you.I need peace in my own home. You know they always call durring dinner or just when I have fallen asleep. Please keep this harrassment out of my life...
